I'm starting the 7-Day DevOps challenge!

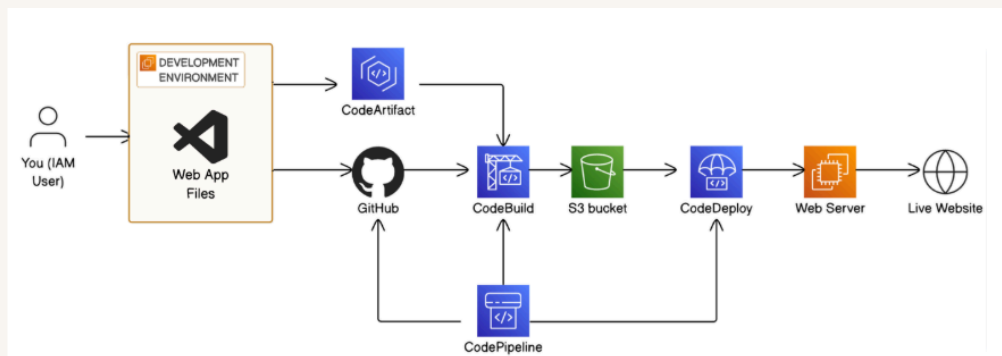

shilpa kale

I'm building a CI/CD pipeline in 7 days

In this DevOps challenge, we'll learn about how to build a complete CI/CD pipeline that takes code from commit to production, gaining practical DevOps skills that are in high demand.

Hold me accountable!

I will set aside 2hrs every day for a week to work on this challenge. I will keep myself accountable by keeping a track of my progress on calendar. My reward for completing this DevOps challenge will be watching my favourite movie on Netflix.

What is DevOps?

DevOps is a set of practices. DevOps engineers implement DevOps practices in their organization. They are:- Build automated pipelines, Containerize, Turn cloud infrastructure into code

What is CI/CD?

CI/CD stands for Continuous Integration/Continuous Delivery. This process helps teams by making the flow from code changes to a live application as efficient and reliable as possible. Build and Deploy process starts automatically

Excited to share my progress - do this challenge with me!
